

Meijer Pharmacists Prepared for Customers' Fall Vaccination Needs

Retailer adds new Respiratory Syncytial Virus (RSV) vaccination to offering

GRAND RAPIDS, Mich., Sept. 7, 2023 /PRNewswire/ -- Meijer pharmacies are prepared for customers' fall vaccination needs with a full inventory of flu shots ahead of flu season and the first ever FDA-approved Respiratory Syncytial Virus (RSV) vaccine for adults 60 and older.

RSV is a common respiratory virus that usually causes mild, cold-like symptoms. While most people recover in a week or two, RSV can be serious in infants and older adults who are more likely to develop severe symptoms and need hospitalization. Earlier this year, the FDA approved the first RSV vaccine for older adults. Meijer has ample inventory of it and more than 15 other available vaccinations.

"Meijer cares about the communities we serve, and our pharmacists work diligently to help our customers keep their families healthy all year long," said Jackie Morse, Group Vice President of Pharmacy at Meijer. "Meijer is more than a grocery store. Millions of people trust us each year to support their health and wellness needs and these vaccinations are just one of the many ways we're here for them."

All Meijer pharmacies across the Midwest will also offer the annual COVID-19 vaccine later this fall, following approval from the FDA, as well as vaccines for shingles, pneumonia, whooping cough, meningitis and tetanus all year long.

To schedule a vaccine appointment, text "VACCINE" to 75049, visit [Clinic.Meijer.com](https://www.clinic.meijer.com), or call your local Meijer pharmacy. Walk-in appointments are also welcome.

Most Meijer pharmacies have private consultation rooms where patients can receive their immunizations.
